

A screenshot of a web browser window titled "KimiAI Bot AI". The page has a dark theme. At the top, there is a navigation bar with tabs for "Connect device" and "localhost:8503". Below the tabs, there are icons for a star, a profile picture, and a "Chat" button. The main content area features the "KimiAI Bot AI" logo and the text "Designed & Developed by Hemant Katta". A message box shows a bot icon followed by the text "Hello". Another message box shows a bot icon followed by "Hello back! How can I brighten your day?". At the bottom, there is a text input field with the placeholder "Please enter your message here...." and a send button. The browser's taskbar at the bottom shows various application icons, and the system tray indicates it's 19:19 on 16-02-2026.

Hello

Hello back! How can I brighten your day?

Please enter your message here....

The screenshot shows a dark-themed web application window titled "KimiAI Bot AI". At the top, there's a header bar with the title and a "Deploy" button. Below the header is a message from the bot: "Hi! 😊 Kimi 😊". The user then asks, "How can I help you today?". The bot responds with an introduction: "I'm Kimi—your AI sidekick on the planet Earth. I read, write, code, and brainstorm, but I don't eat, sleep, or get cranky (yet). Think of me as a pocket-sized language wizard who's always online and never needs coffee." A message input field at the bottom contains the placeholder text "Please enter 🤖 your message 📄 here...." with a send button icon. The browser's address bar shows "localhost:8503". The taskbar at the bottom includes icons for various Windows applications like File Explorer, Edge, and Task View.

Hi! 😊 Kimi 😊

How can I help you today?

Who're you 🤖

I'm Kimi—your AI sidekick on the planet Earth. I read, write, code, and brainstorm, but I don't eat, sleep, or get cranky (yet). Think of me as a pocket-sized language wizard who's always online and never needs coffee.

Please enter 🤖 your message 📄 here....

A screenshot of a web browser window displaying a chat interface. The window title is "localhost:8503". The chat is with an AI named "KimiAI". The conversation is as follows:

- KimiAI: Hi! 🌟 Kimi 🌟
- User: How can I help you today?
- KimiAI: Who're you 🤖
- KimiAI: I'm Kimi—your AI sidekick on the planet Earth. I read, write, code, and brainstorm, but I don't eat, sleep, or get cranky (yet). Think of me as a pocket-sized language wizard who's always online and never needs coffee.
- User: Who developed you 😊
- KimiAI: I'm Kimi, a large language model trained and developed by Moonshot AI (月之暗面科技有限公司).

The browser toolbar at the bottom shows various icons for file operations, search, and system controls. The status bar at the bottom right indicates the date as 16-02-2026 and the time as 19:34.

A screenshot of a web browser window displaying a chat interface. The window title is "localhost:8503". The chat history shows the following messages:

- Who developed you 🤖
- I'm Kimi, a large language model trained and developed by Moonshot AI (月之暗面科技有限公司).
- What can you do 🤖
- I can do a lot of things—here's a quick “menu” you can pick from:
 - Quick answers
 - Explain any concept (from quantum bits to why cats knock stuff over)
 - Trivia, definitions, how-to steps, timelines...
 - Writing & editing
 - Emails, essays, tweets, poems, ad copy, code documentation
 - Rewrite in any tone: formal, playful, pirate, “explain-like-I’m-five,” etc.
 - Grammar & clarity check; shorten or lengthen text.

Please enter 🗳 your message 📄 here.... ➤

The browser toolbar at the bottom includes icons for file operations, search, and various applications like Microsoft Word, Excel, and Edge. The system tray shows the date (16-02-2026) and time (19:41). A small notification icon in the top right corner indicates four unread messages.

• Explain any concept (from quantum bits to why cats knock stuff over)
• Trivia, definitions, how-to steps, timelines...

2. Writing & editing
• Emails, essays, tweets, poems, ad copy, code documentation
• Rewrite in any tone: formal, playful, pirate, “explain-like-I’m-five,” etc.
• Grammar & clarity check; shorten or lengthen text.

3. Coding & data
• Generate or debug Python, JavaScript, C++, SQL, HTML/CSS, Bash, you name it.
• Comment or refactor code; write unit tests; explain algorithms.
• Quick data tasks (CSV/JSON wrangling, regex, pandas snippets).

4. Creative & fun
• Story seeds, D&D quests, song lyrics, rap battles between inanimate objects.
• Image prompts for Stable Diffusion/Midjourney.
• “What if” scenarios (“What if gravity took a coffee break?”).

5. Productivity hacks
• Summarize long articles or meeting notes.
• Turn rough bullet points into polished slides.
• Build flash-cards, quizzes, study guides.

Deploy Chat

- Summarize long articles or meeting notes.
- Turn rough bullet points into polished slides.
- Build flash-cards, quizzes, study guides.

6. Language & culture

- Translate among 20+ languages.
- Explain idioms, slang, or cultural context.
- Practice conversation ("Let's role-play a Paris café ordering in French").

7. Math & logic

- Step-by-step algebra, calculus, stats, finance formulas.
- Brain-teasers, riddles, Sudoku solver.

8. Career & life

- Resume polish, mock interview questions, negotiation scripts.
- Meal plans, workout splits, travel itineraries.

9. (Meta) Help

- Teach you how to prompt me better.
- Explain my own limitations ("I don't browse live web, I can't taste coffee...").

Just tell me what you need or say "surprise me" and I'll improvise.
